Hello Ms. Ezhari,

I feel that Mr. Landreth has no intentions of relocating the food coalition. I met with Ted Landreth on June, 2013 and my neighbor on 2014. On both occasions stated that, "if you want me to move, you guys (our neighbors) have to find a place and pay the monthly rent. In addition, he advised us that he wasn't going any where because Mole-Richardson had political power in City Hall. "I am very good friends with the city counselmen in your district." He was referring to Mr. Labonge and Mr. Koretz.

Please see the attached images these pictures are Mole-Richardson's properties and have caused a public nuisance.

1. The billboard is covered with graffiti.
2. The fenced properties are being used at night by homeless

Our neighborhood

1. We requested speed bumps or signs, see image... we put up our own signs.
2. Requested City Hall to issue a citation to the production company (803 Sycamore Ave) trash cans are left out on the street 24/7

Sincerely,

Sylvia Caluya

Dear All,

The property Ted has referred to is in Council District 13 on the south west corner of Gower and Highland, its the smaller property on Carlos (approx 8000 square feet). It currently has 3 small bungalows on it. If they succeed in raising the money needed it would be to purchase the property. They chose this location because Hollywood Pres church is across the street, the Salvation Army is down the street and other service providers are in the immediate area. They intend on keeping the program outside but in a parking lot.

As our Chief of Staff mentioned we are not in anyway involved with the fundraising campaign.

Best,
 Nikki

Dr. Love,

We have absolutely no information on this project and are not fundraising for them. Nikki on our staff is looking into this. We have some of the same concerns as you.

We will let you know what we learn.

Dear Ms Dusseault,

Thank you for sending me your email. I'd like to bring up some questions to all those involved in the relocation of the gwhfc foodline, regarding their fundraising to secure a building. I am concerned, as I have been for years, that money is raised for projects that never materialize.

- 1- Why isn't there any specific information as to what the \$200,000 Will be used for? There's no talk about a lease, down payment or how that money will be used to get the foodline off the streets . For all the public knows that \$200,000 is being raised to purchase someone's garage.
- 2- Why isn't there even one picture of the building?
- 3-Why isn't there So much as a description of the amenities and how it will benefit the homeless?
- 4- Why isn't there any mention of what part of the city the said building is in?
- 5-Will the current recipients of the foodline be able to walk to the new location, as many are without transportation or bus fare?
- 6- Why isn't there any description of a timeline?
- 7- Will the building be available in 2 years if it takes that long to raise the money?
- 8- Can whchc afford the monthly mortgage after putting this money towards a building?
- 9- Why isn't this breakthrough the first highlighted article on their webpage? I found it impossible to find the fundraising page And requested that someone send me the link.

I find this entire hustle for cash outrageous. I live by Target in West Hollywood and am too aware of the destruction caused by those who frequent Ted Landreth's foodline. I can never be labeled a NIMBY, because I was homeless in the 90's and ate in this foodline. There was a joke on the streets among us that were homeless and ate in the foodline, that the foodline was a good way to flush your system as many people got diarrhea after eating the food. I watched the video on gwhfc website and recognized some of the pictures of the homeless as being crack and meth addicts. One female in the pictures stood outside of the 99c store when I was there, with a glass pipe terrorizing the patrons of the store and is responsible for foul graffiti on the Romaine/LaBrea building. Ted Landreth has raised hundreds of thousands of dollars over 25 years and is no closer today to upgrading his foodline to a sanitary indoor facility than he was in the 90's. There is only one way that

anyone would be motivated to contribute to this cash drive and that is to trust Ted implicitly that he is integral enough to spend \$200,000 towards some sort of a building. I think it's time for everyone involved to wake up and look at the facts.

Sincerely,
Dr. Love

Nikki,

Can you call and confirm location and see if this is firm.

Thanks,

Sarah

Hi Tim,

The GWHFC found a spot to move to and actively are pursuing it. The have a crowd funding page up now and fundraising to try to acquire.

Wanted to let you know in case you had any ideas, I know you have been on this for a long time. This is the best opportunity to date to get them a permanent location.

Just wanted to loop you in.

I am working for Recreation and Parks now , but will always try to help them find a way off the street.

Hope you are well,

Tracy James

Hi Syliva,

With regards to your community concerns:

- 1) We can have the graffiti on the billboard cleaned,
- 2) We generally do not recommend removing the green screen from the fences,
- 3) The speed hump program is still not in effect and although we appreciate that the community is engaged and has made their own sign, such signs are not allowed to be posted on the sidewalk without proper permits.
- 4) I will notify the Department of Sanitation of the bins.

Best,
Nikki

Hi Sylvia,

I sent a formal complaint to have the graffiti from that billboard cleaned. They said they couldn't clean it because it is on a rooftop and is too high. Perhaps Nikki will have better luck.....

I also notified the sanitation dept about the bins. Their lazy asses didn't do anything. Perhaps Nikki will have better luck.

Sure---it's the 99 Cent Store rooftop at 852 N La Brea Ave 90038 (corner of LABrea & Willoughby.) I hope you will have better luck than I did.

Thanks,

Valarie

Hi Nikki,

Thank you for your prompt response to this matter.

There is a street gutter to alleviate water buildup on the street running vertical to Waring and Sycamore. **Our street needs a traffic calming device to keeping vehicles to speed down in order to prevent accidents.** Unfortunately, we have had several accidents that includes hit in run accidents.

On August 2015, I met with Mr. Koretz's staff to expressed the community concerns. Unfortunately, our community concerns have been ignored for years by Mr. Koretz's Office. I was advised by Mr. Koretz' staff that currently residents must pay the entire \$15,000 for speed hump to install.

I would like to thank you for taking care of the community issues in a seamless and professional manner.

Unfortunately the speed hump program is not currently available and the information you received from CD 5 is correct, it it does become available, I'll let you know. With regards to installing storm drains, its not feasible to do so because they have to connect to the infrastructure underground.
